

Douglas Bay Tramway Heritage Trust

advancing education through conservation

Douglas Bay Tramway Heritage Trust is an independent charity helping to promote and support the Douglas Bay Horse Tramway, its draught horses and its historic tramcars. Our focus is the advancement of education through heritage conservation.

The operation and maintenance of the Horse Tramway are publicly funded by the Isle of Man Government in support of the Island's heritage and tourism.

The Trust raises separate charitable funds to support education and conservation initiatives related to the Horse Tramway, its draught horses and its historic tramcars. Our aims and objectives are to help:

- increase public interest in and knowledge about the Horse Tramway and the use of horses as working animals in transport, industry and agriculture;
- develop and maintain learning opportunities with both the operation of the Horse Tramway and the participation of Tram Horses in traditional draught horse events and activities;
- conserve for public benefit items connected with the Horse Tramway which are of historical, architectural, engineering, scientific or cultural value;
- make the operation of the Horse Tramway as a heritage transport service sustainable for the longer term through increased appreciation, visitor appeal and revenue.

Douglas Bay Horse Tramway is owned by the Isle of Man Government and is operated as a heritage transport service and visitor attraction by **Isle of Man Transport** (part of the Department of Infrastructure) with additional support from volunteers. The small retail shop within the Tramway Stables is also run by Isle of Man Transport, which receives all of the proceeds from items purchased in the shop.
